

# My KPIs – digital performance module

A DIGITAL first experience in the European ports environment.

- HAROPA PORT -  
Published on 8 June 2020

## Discover the brochure performance indicators containers, RoRo and dry bulk

Every year since 2014, HAROPA PORT and the port communities of Le Havre and Rouen have been publishing performance indicators. A true collaborative work by all players working to facilitate the transit of goods, this publication aims at collective competitiveness and increased attractiveness.

Grouped into main families - shipping performances, performances for goods in transit (road, rail and river modes), on-shore performances and customs and health performances, these indicators meet the needs of professionals and customers in the international supply chain.
