

Security and safety

- HAROPA PORT -
Published on 29 April 2022

HAROPA PORT is one of the most important entry-exit points on the national and European territory. Each link in the port and logistics chain benefits from **the traceability of transit operations**, the first guarantor of safety (S) One and associated specific procedures).

HAROPA PORT is constantly redefining, in its port **security plans**, strategic areas and procedures to maintain an **optimal level of security throughout the supply chain**.

HAROPA PORT | Le Havre is **the first European port authority** and the second in the world to be certified by the **ISO 28000** (2010) approach

- ISO 28000 certified (2010) renewed in 2022,
- Security service (140 sworn agents),
- 17 areas of reinforced security control,
- Certified C.S.I (Container Security Initiative).

Ports and Rouen port installations compliant with ISPS (International Ship and Port Facility Security) code.
